

Allendale CERT Training Bulletin

Basic Training Classes

Tuesday, September 27th, 2016

Who are we?

We are a cross section of the Allendale community, made up of people just like you! The **Community Emergency Response Team** is trained in basic emergency preparedness and disaster response in order to better serve their families, neighbors and coworkers in times of crisis. If you don't have a lot of time but want to give back to the community, consider joining Allendale CERT.

What do we do?

- CERT works with local, county and State emergency officials for emergency and disaster response
- We provide outreach and preparedness education and training to the community
- CERT provides safety support to local, county and State events, easing the burden on professional services
- We train beyond the basics to provide service to the community in large scale disasters
