

ALLENDALE RECYCLING ALERT!

Due to broad changes in the recycling industry, we are no longer able to accept any plastic bags, plastic film, plastic wrapping, etc. for recycling. That includes plastic bags that are used to contain commingled recycling, mixed paper, etc. These items must be put in the container loose. Curbside commingled recycling must be placed in 30 gallon containers, not plastic bags.

Plastic bags can be returned to your local supermarket.

Thank you for your cooperation!
